To: Off-site Property Owners and Other Interested Persons

The Central Valley Regional Water Quality Control Board is proposing to provide regulatory closure for an environmental investigation related to soil remediation at the PG&E Merced Property. State Water Resources Control Board policy requires public notification when a cleanup site is proposed for closure to provide parties in the vicinity of a site the opportunity to participate in the closure process. This Public Notice has been transmitted to you, as well as posted [on the Central Valley Water Board website](http://www.waterboards.ca.gov/centralvalley/public_notices/#SiteCleanup) ([http://www.waterboards.ca.gov/centralvalley/public\\_notices/#SiteCleanup](http://www.waterboards.ca.gov/centralvalley/public_notices/#SiteCleanup))

You may participate in the case closure process by reviewing the enclosed Fact Sheet that summarizes site conditions as determined by the investigation and assessment activities. The State Water Board guidance establishes a 30-day review period for property owners, and/or persons identified in the off-site property owner survey, and other interested parties to provide comment. Additional detailed information regarding the project can be found at the State Water Board's Geotracker website at [at the State Water Board's Geotracker website](https://geotracker.waterboards.ca.gov/profile_report.asp?global_id=SL0604764750) ([https://geotracker.waterboards.ca.gov/profile\\_report.asp?global\\_id=SL0604764750](https://geotracker.waterboards.ca.gov/profile_report.asp?global_id=SL0604764750)).
